## MANAGEMENT DISCUSSION AND ANALYSIS

The board (the “**Board**”) of directors (the “**Directors**”) of Kwan On Holdings Limited (the “**Company**” or “**Kwan On**”) is pleased to announce the unaudited interim results of the Company and its subsidiaries (collectively, the “**Group**”) for the six months ended 30 September 2017 (the “**Reporting Period**”).

## BUSINESS REVIEW AND OUTLOOK AND PROSPECT

Kwan On Holdings Limited (the “**Company**”) and its subsidiaries (collectively the “**Group**”) are engaged as main contractor in the provision of (i) waterworks engineering services; (ii) road works and drainage services and site formation works; (iii) landslip preventive and mitigation works to slopes and retaining walls services (“**LPM Services**”); and (iv) building works in Hong Kong.

Kwan On Construction Company Limited (“**Kwan On**”), an operating subsidiary of the Group, is one of the Group C contractors (confirmed) for waterworks engineering services, Group C contractors (confirmed) for roads and drainage services, Group B contractors (confirmed) for site formation services, and Group A contractors (probationary) for buildings services on the list of approved contractors for public works maintained by the Works Branch of the Development Bureau of the Hong Kong Special Administrative Region Government.

As at 30 September 2017, the Group had 15 contracts in progress, and 6 of them are expected to be substantially completed within the next 12 months. Accordingly the Group may experience a drop in the number of ongoing projects on hand if the Group cannot secure new contracts from existing customers.

This Reporting Period remained challenging as the prolonged debates on infrastructure construction projects in the Legislative Council had caused delay in tendering of new works in the public sector. Despite delays in awarding of tenders for numerous major public construction projects during the Reporting Period, the Group was still able to secure three new projects under the name of Kwan On.

Further, there had been an upward trend in construction costs, particularly the wages. In the event that there is a significant increase in the costs and demand for labour, the Group’s staff costs and/or subcontracting costs will increase and thus resulting an adverse impact to the Group’s profitability.

Look ahead, it is expected to have further challenges and uncertainties in Hong Kong and in the construction industry. The management of the Group will cautiously monitor the overall construction costs and market conditions and consider diversifying the customer base to increase business opportunities.

In addition, the Group has strived to expand the construction business to new geographical areas. The Group has entered into negotiations with the government of Makati City, the Philippines in relation to conducting a feasibility study on public transportation projects in Makati City and its surrounding areas during the Reporting Period.

## **FINANCIAL REVIEW**

### **Revenue**

Revenue for the Reporting Period amounted to approximately HK\$316.3 million, representing a decrease of approximately 24.7% as compared to the six months ended 30 September 2016 (“**2016 Interim**”) of approximately HK\$419.8 million. The decrease in revenue was mainly attributable to (i) decrease in contributions from five projects which had been completed; (ii) delay in work progress for project KL/2012/03 and (iii) decrease in work done from two projects which were close to completion. While the revenue for the three newly awarded projects, namely NE/2016/04, NE/2016/05 and CDO2016061 which were commenced in February 2017, March 2017 and February 2017 respectively, had contributed approximately HK\$13.7 million to revenue for the Reporting Period.

The five projects which had been completed during the Reporting Period namely, GE/2012/11, GE/2013/06, GE/2013/17, CDO2015034 and 20130375 contributed approximately HK\$4.6 million in aggregate during the Reporting Period (2016 Interim: approximately HK\$46.2 million).

Due to continuous change in designs by the customer which required re-assessment and approvals from the relevant authorities, the work progress for project KL/2012/03 had been delayed. As a result, revenue contributed by project KL/2012/03 recorded a decline by approximately 20.0% to approximately HK\$104.3 million during the Reporting Period (2016 Interim: approximately HK\$130.3 million).

The work done for projects GE/2013/16 and GW/2015/05/038 decreased as these projects had been close to completion. As a result, lower revenue had been recognised that amounted to approximately HK\$35.2 million during the Reporting Period (2016 Interim: approximately HK\$86.2 million).

### **Cost of services**

Cost of services decreased to approximately HK\$290.9 million for the Reporting Period (2016 Interim: approximately HK\$390.3 million), representing a decrease of approximately 25.5%. Such decrease was mainly attributable to the decrease in the subcontracting charges and staff wages with the completion projects during the Reporting Period.

### **Gross profit**

Gross profit for the Reporting Period was approximately HK\$25.5 million (2016 Interim: approximately HK\$29.5 million) while gross profit margin for the Reporting Period was approximately 8.1% (2016 Interim: approximately 7.0%). The increase in gross profit margin was the result of recovery of costs from customers' payment certification in relation to certain works completed during the Reporting Period where revenue had not been previously recognised.

### **Other income**

Other income for the Reporting Period amounted to approximately HK\$0.6 million (2016 Interim: approximately HK\$0.7 million), represented a decrease of approximately 13.6%. The decrease was the result of non-receipt of government grant from the Transport Department for ex-gratia payment for retirement of vehicles for the Reporting Period (2016 Interim: approximately HK\$0.2 million).

### **Other gains and losses**

The Group recorded a gain of approximately HK\$0.4 million during the Reporting Period (2016 Interim: approximately HK\$0.4 million), arisen from the disposal of defective motor vehicles.

### **Administrative expenses**

Administrative expenses for the Reporting Period were approximately HK\$11.8 million (2016 Interim: approximately HK\$13.9 million), representing a decrease by approximately 14.7%. The decrease was mainly attributable to a decrease in professional fee incurred during the Reporting Period.

### **Unrealised loss on held-for-trading securities**

During the Reporting Period, the Group had invested in certain listed shares and recorded a gross fair value loss of approximately HK\$6.9 million (2016 Interim : Nil).

### **Finance costs**

Finance costs for the Reporting Period amounted to approximately HK\$1.6 million (2016 Interim: approximately HK\$1.4 million). The increase was mainly due to higher average outstanding borrowings during the Reporting Period arisen from the mortgage loan amounted to approximately HK\$11.4 million as at 30 September 2017 for financing the acquisition of the office premises in March 2017.

### **Income tax expense**

Income tax expense decreased to approximately HK\$2.2 million for the Reporting Period and the effective tax rate was approximately 16.5% during the Reporting Period (2016 Interim: approximately 16.0%) in line with the statutory tax rate.

## **Profit and total comprehensive income**

Profit and total comprehensive income for the Reporting Period amounted to approximately HK\$4.0 million (2016 Interim: approximately HK\$12.8 million). The decrease was mainly attributable to the increase in unrealised loss on held-for-trading securities at the Reporting Period end.

## **LIQUIDITY AND FINANCIAL RESOURCES**

The Group generally finances its operations with internally generated cash flow and facilities provided by banks. As at 30 September 2017, the Group had bank and cash of approximately HK\$35.9 million (31 March 2017: approximately HK\$194.4 million), while outstanding borrowings amounted to approximately HK\$61.6 million (31 March 2017: approximately HK\$73.9 million). The decrease in bank and cash was mainly attributable to (i) purchase of held-for-trading securities amounted to approximately HK\$83.8 million and (ii) repayment to a director of approximately HK\$50.0 million.

As at 30 September 2017, the Group had pledged bank deposits of approximately HK\$52.4 million (31 March 2017: approximately HK\$58.0 million). Further details for securities held for borrowings and banking facilities granted by banks to the Group as at 30 September 2017 are set out in Note 9 to this condensed consolidated financial statements.
